PROFILE

<https://sandeep-portfolio02.vercel.app/>

Web developer and programmer with experience in MERN stack and C++. Proven ability to design, develop, and deliver high-quality web applications. Expertise in all aspects of the web development process, from front-end design to back-end development. Strong problem-solving and analytical skills. Ability to work independently and as part of a team.

EDUCATION

University College of Engineering and Technology, Hazaribagh

Bachelor of Technology in Computer Science
2020 – 2024

Kendriya Vidyalaya Ramgarh Cantt, Ramgarh

Intermediate
2019

SKILLS

- MongoDB Express React.js Node.js
- HTML | CSS | Tailwind CSS.
- C++ | C
- MYSQL
- OOPs with JAVA

PROJECTS

EduSupport

 <https://github.com/sandeep-233/Edu-support>

 <https://edu-support-nine.vercel.app/>

It's a fully functional Ed-tech platform utilizing the MERN stack (MongoDB, Express.js, React.js, Node.js). The platform offers a comprehensive range of features to enhance user experience:

- Implemented user authentication allowing registration as either an "Instructor" or "Student".
- Integrated online payment gateways for students to purchase courses added by instructors.
- Enabled students to provide course reviews, enhancing transparency and credibility.
- Implemented progress tracking functionality, allowing students to monitor their learning journey based on completed lectures.
- Empowered instructors with the ability to add courses to the platform.
- Facilitated seamless addition, updating, and deletion of lectures within courses by instructors.
- Provided instructors with insights into the number of students enrolled in their courses, enabling them to gauge their impact and popularity within the platform.

This project showcases proficiency in full-stack development, including front-end and back-end technologies, user authentication, payment integration, and database management.

ACHIVEMENTS

- Web-development bootcamp (MERN Stack) Completion Certificate
- Responsive web-design certificate
- I have received my Elite NPTEL Online Certificate for successfully completing the course Programming, Data Structures and Algorithms with Python. With a 71% consolidated score.
